

Solana has 54 million active wallets.
Why doesn't it have one hit game?

**Because crypto games are built
to extract. Gameplay comes last.**

**Hits are built on fun and
characters.**

We make characters for a living.

Ours: Shiro & Kuro.

Shiro THE HERO

Thinks, then wins. Never flinches.

The perfect trap

Kuro THE RIVAL

Jealous, in a hurry. Always blows up.

The heist

The disguise

THE FIRST MORNING

Kuro wanted the first carrot. Shiro got it. Now Kuro sabotages everything.

THE RULES

- ★ Shiro never strikes first.
- ★ Kuro is never beaten by Shiro. The island beats him, or the gear he bought.
- ★ Every item in the shop, Kuro tried it first.

Season 1 ends with Shiro wearing the crown. Now every rabbit hunts him.
