

**Rabbits were too big for
a casino.**

The birth.

I started domin8 last year: 28K games played. To thank our community, we built a new game on it: **Rabbit Royale**.

Instant hit. Sessions up to 1.5 hours, 3 games a minute.

DEFEND

Bury bombs and fences: a minefield you design.

RAID

Cross a rival's burrow: a minefield they designed.

GAME ECONOMY

Players buy time, revenge and style. Never power.

Everything is earned by playing. Or skip the grind in SOL or SKR, straight from your wallet.

Shiro THE HERO

Thinks, then wins. Never flinches.

Kuro THE RIVAL

Jealous, in a hurry. Always blows up.

THE FIRST MORNING

Kuro saw the island first.
Shiro dug first. Kuro never forgave him.

THE RULES

- ★ Shiro never strikes first.
- ★ Kuro is never beaten by Shiro. The island beats him, or the gear he bought.
- ★ Every item in the shop, Kuro tried it first.

Season 1 ends with Shiro wearing the crown. Now every rabbit hunts him.
