Clash of Clans?**

BORN IN A CASINO

Too addictive to stay gambling.

Rabbit Royale was domin8's top mode by volume.
We kept the core and took the wager out.

Rabbit Royale games

Dig. Defend. Raid.

Real-time multiplayer: up to 4 rabbits on the same island, and first to dig takes the carrot.

DIG

Read the numbers, dodge the bombs, beat rivals to the carrots.

DEFEND

Bury bombs and fences: your burrow is a minefield you design.

RAID

Cross a rival's burrow: a minefield they designed.

GAME ECONOMY

Players buy time and revenge. Never power.

Everything is earned by playing. Or skip the grind in SOL or SKR, straight from your wallet.

Shiro and Degen: a game, a series, merch. Born on Solana.

GO-TO-MARKET

Every raid recruits.

In 1996, Pokémon sold slowly. Then a secret and a friend did the marketing. Our revenge loop does the same.

POKÉMON, 1996

Two versions

You needed a friend to catch them all.

The secret Mew

20 given away, 78,000 entries. Sales took off.

Manga in CoroCoro

The story ran next to the game.

Link cable

Trading happened face to face.

RABBIT ROYALE

Community wars

→ Solana communities need each other: they raid as clans.

A legendary rabbit

→ One hidden per island. Whoever digs it up posts it.

Viral clips

→ Shiro and Degen on X and Shorts. No words, made to share.

Seeker first

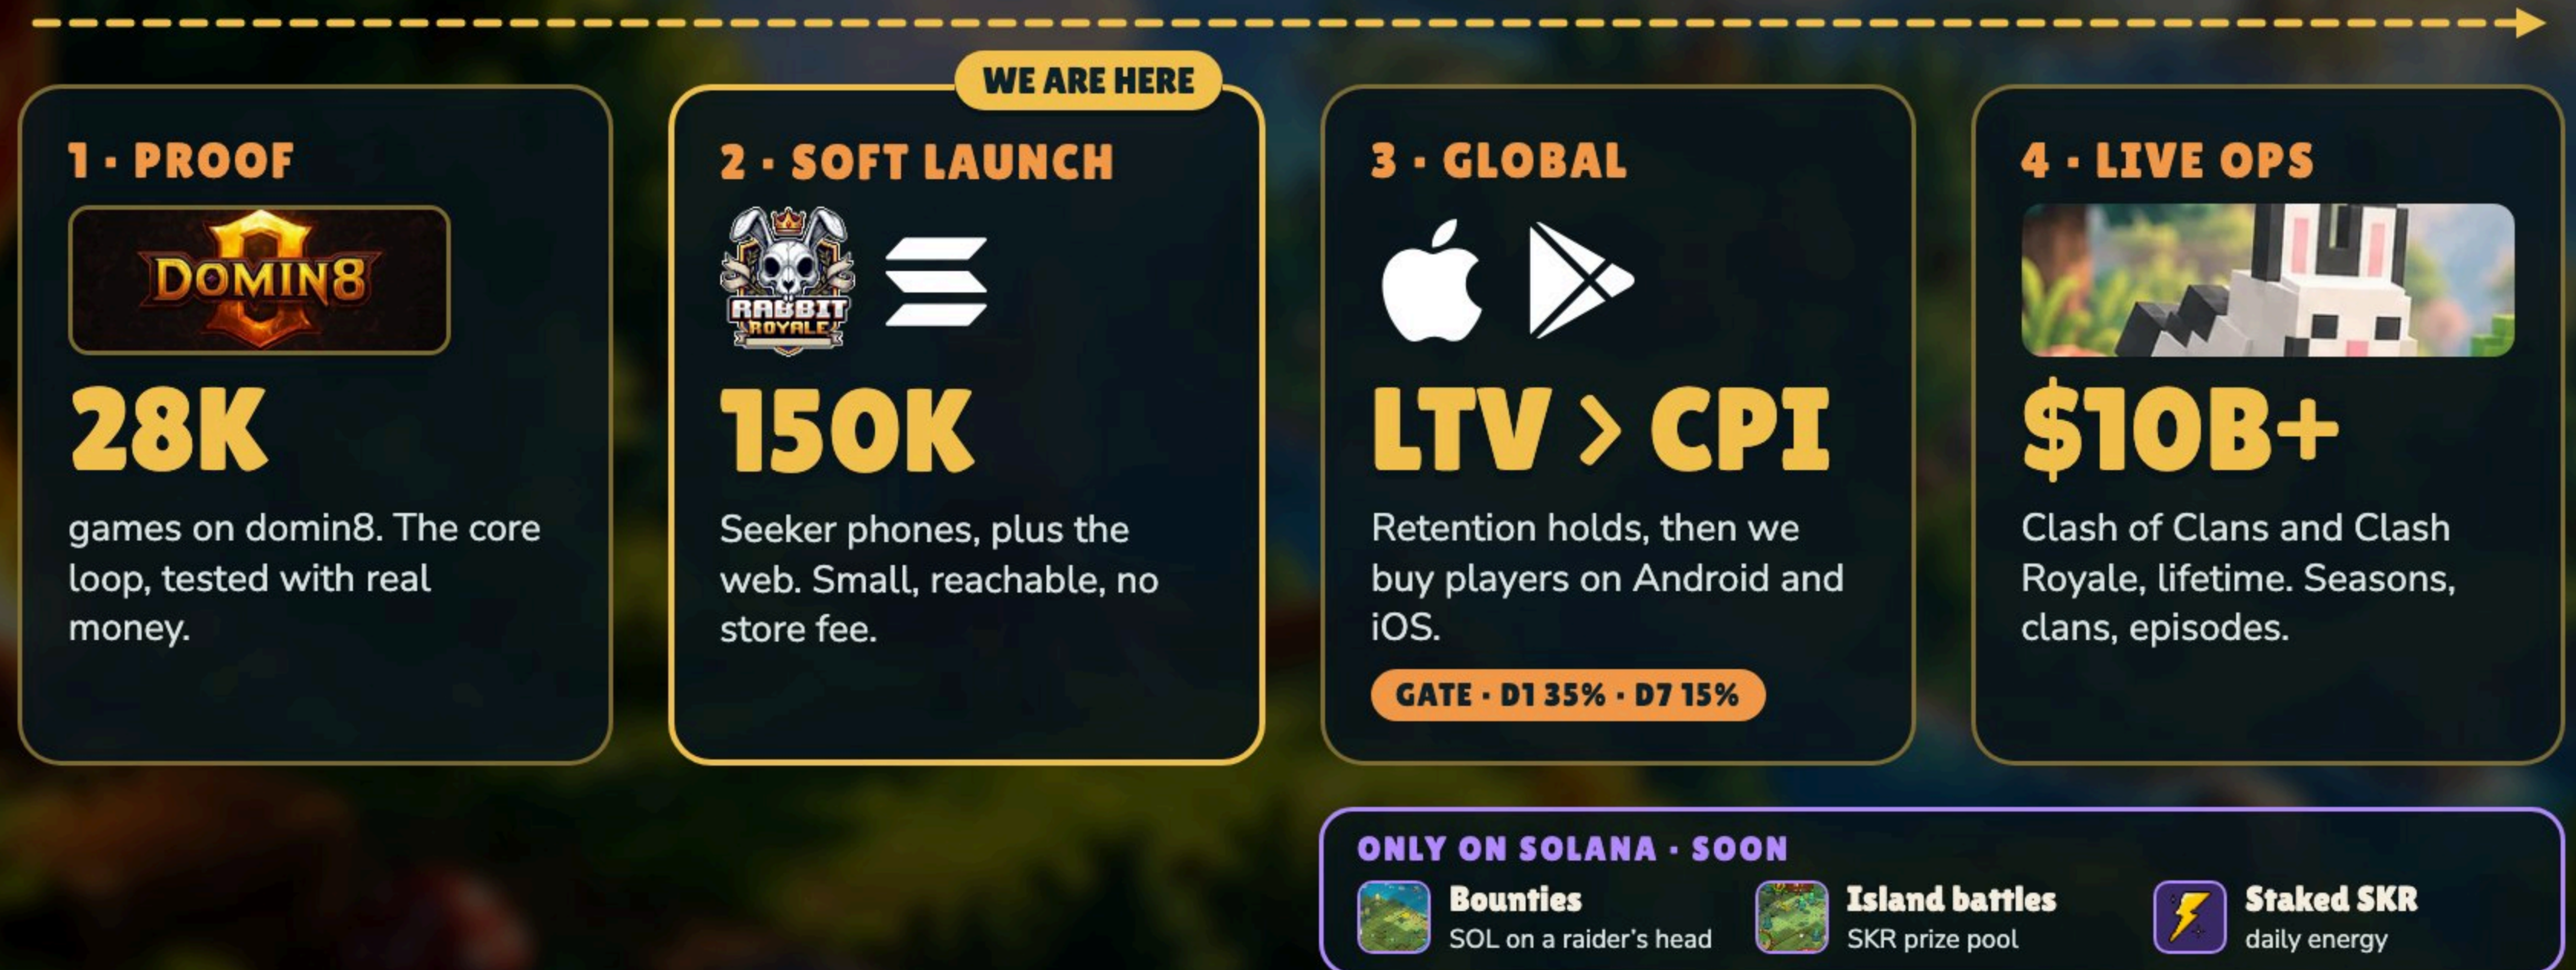

→ 150K phones, one dApp Store, quests paid in SKR.
